

Name : Jenish Divyesh Shah

Div : B Rollno : 75

Assignment - 2 (Full Stack Development)

Q1 :

Welcome to React

This is the Header Component

Student Details

Name: Jenish

Course: BSc IT

Year: 2nd Year

Q2

 **React lab**
Assignment 02

EXERCISES

01 **Function component**
A simple profile card

02 **Rendering patterns**
Conditional, lists & nesting

03 **Counter**
Increment, decrement, reset

04 **State + ref**
Focus and render tracking

05 **Digital clock**
State with an effect

06 **Manual validation**
Live form feedback

07 **Library validation**
React Hook Form + Yup

08 **Employees**
Fetch JSON into a table

09 **Students**
Search and filter records

Vite workspace • React 19

Q2 / Function component

COMPONENT SHOWCASE

QUESTION 01

Function component

A reusable profile card built with a plain function component.

Meet Aanya

<ProfileCard />

AS

Aanya Shah
Frontend developer • Mumbai
Available for projects

 **React lab**
Assignment 02

EXERCISES

01 **Function component**
A simple profile card

02 **Rendering patterns**
Conditional, lists & nesting

03 **Counter**
Increment, decrement, reset

04 **State + ref**
Focus and render tracking

05 **Digital clock**
State with an effect

06 **Manual validation**
Live form feedback

07 **Library validation**
React Hook Form + Yup

08 **Employees**
Fetch JSON into a table

09 **Students**
Search and filter records

Vite workspace • React 19

Q2 / Rendering patterns

COMPONENT SHOWCASE

QUESTION 02

Rendering patterns

One small case study showing conditions, lists, nested components, and containment through children.

Team status

conditional

Toggle status

- The team is online

01 Components

02 Props

03 State

04 Effects

Nested panel

children

Parent component

This content is passed through `children`, making the panel reusable.

Nested child component

Assignment 02

EXERCISES

01 Function component

A simple profile card

02 Rendering patterns

Conditional, lists & nesting

03 Counter

Increment, decrement, reset

04 State + ref

Focus and render tracking

05 Digital clock

State with an effect

06 Manual validation

Live form feedback

07 Library validation

React Hook Form + Yup

08 Employees

Fetch JSON into a table

09 Students

Search and filter records

Vite workspace • React 19

Q2 / Counter

COMPONENT SHOWCASE

QUESTION 03

Counter component

A stateful counter with the three essential controls.

Session count

useState

3

actions taken

+ Increment

- Decrement

Reset

07 Library validation

React Hook Form + Yup

08 Employees

Fetch JSON into a table

09 Students

Search and filter records

Vite workspace • React 19

Q2 / State + ref

COMPONENT SHOWCASE

QUESTION 04

State + ref

useState updates the preview while useRef keeps a DOM reference for imperative focus.

Live identity card

useState + useRef

Your name

jenish divyesh shah

Preview

jenish divyesh shah

Input focus is controlled with useRef

Focus input
